

# 1000mm deep server rack for bridges in the UK

What size server rack do I Need?

Server Racks come in a range of heights to suit your requirement, from 12U up to 47U. The cabinets are fitted with quick release front and rear perforated doors (approximately 60% open), fitted with lockable swing handles. The side panels can be fitted with cabinet locks.

What is a rackyrax 19 inch server cabinet?

RackyRax 19" Server Cabinets combine all the features of a premium Server Rack Cabinet including the aesthetically pleasing design, without the price-point to match. The cabinets are fitted with quick release front and rear perforated doors (approximately 60% open), fitted with lockable swing handles. The side panels can be fitted with cabinet...

How does a server rack work?

The large floor aperture gives maximum cable access, plus there is cabling access in the top. All apertures are fitted with blanking plates as standard. These server racks have additional cable access next to the profiles to allow easy routing of cables from the front to the rear of the cabinet.
