

100kW IP66 Battery Cabinet for Water Plants

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Intelligent BMS, providing complete protection. Support high discharge power, IP55, natural cooling, wide temperature range: -20°C to 55°C. Modular design, easy to expand. Suited to residential and ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

TLS Energy's 100kW/233kWh storage cabinet utilizes LFP (LiFePO₄) battery cells, known for their long lifespan, high energy density, and superior thermal stability.

We provide tailored 100kW battery storage systems to meet your unique energy needs. Whether you need a basic setup or a high-performance system, we can help you create the perfect solution.

The door-mounted embedded integrated air conditioner does not occupy cabinet space, increases the available space of outdoor cabinets, has better top structural integrity and good waterproofing effect.

This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and an advanced liquid cooling system that enhances thermal ...

Waterproof lithium ion battery storage cabinets ensure that your batteries are kept safe from water damage and short-circuiting. This not only keeps your batteries in good condition and extends their ...

All-in-One Design: Compact, pre-assembled solution for easy deployment and reduced installation time. High Scalability: Modular architecture allows for flexible capacity expansion. Robust Protection: IP54 ...

Our solution is a plug-and-play, turnkey system that can be easily scaled to meet any energy requirements.
