

Objective: To start a sustainable production of photovoltaic modules with a power of more than 400 W at Heckert Solar in Chemnitz, Saxony. This was achieved earlier this year when ...

The Yantai Zhaoyuan 400MW offshore solar project has strong demonstrative significance and driving effect in the industry, marking an important step forward for China's offshore ...

The Suji Sandland Project stands as a beacon of solar innovation, nestled in the expansive Gobi Desert and adjacent desert areas of China. Developed by China Datang Corporation, the project boasts a ...

The Yantai Zhaoyuan 400MW offshore solar project has strong demonstrative significance and driving effect in the industry, marking an important step forward for China's offshore solar sector.

Recently, Grand Sunergy has achieved significant milestones by winning two major photovoltaic projects, solidifying its position as a leader in the renewable energy sector.

New Delhi: State-owned SECI has invited bids for manufacturing and supply of 400 mega watt peak (MWp) of solar modules with cells. The tender also includes testing, packing and ...

China's first large-scale deep-water offshore solar project is energized by Grand Sunergy. Learn how Grand Sunergy's innovation boosts offshore solar efficiency here.

To create higher value for customers with "excellent performance, extremely frugal investment, extremely intelligent operation and maintenance, and extreme security". The project is located in ...

Italian photovoltaic technology specialist Ecoprogetti has successfully completed the installation and ramp-up of a fully automated 400 MW photovoltaic module production line in Salalah, ...

Swelect Energy Systems, Grew Energy, and ReNew Photovoltaics (ReNew) were declared winners in Solar Energy Corporation of India's (SECI) auction to manufacture, test, ...
