

How does Agile Octopus work?

With Agile Octopus, you get access to half-hourly energy prices, tied to wholesale prices and updated daily. So when wholesale prices drop, so do your bills &#226;EUR? and if you can shift your daily electricity use outside of peak times with the use of a battery storage system, you can save even more.

What is Agile Octopus import tariff?

The Agile Octopus import tariff allows customers to take advantage of fluctuating wholesale energy prices. By charging your battery when prices are low and using the stored energy during peak hours, you can reduce your energy bills. This tariff is best for those who can change up their energy use to avoid these expensive peaks.

Does Octopus Energy offer a battery storage tariff?

Octopus Energy offer a range of tariffs designed to help customers maximise the benefits of their battery storage systems. They state that you can save up to 90% on your electricity bill with an Octopus Energy solar panel and battery installation.
