

Current PV panel prices in Northern Europe

How much do solar panels cost in Europe?

The updated guide to photovoltaic module prices shows the latest costs of solar panels across Europe. In August, high-efficiency modules dropped to EUR0.12 per watt, marking an all-time low for the sector. Prices for photovoltaic modules in 2024 continue to fall.

How much does a photovoltaic panel cost?

Mainstream Photovoltaic Panels: Average price of EUR0.10/Wp, down 9.1% month-on-month. Low-Cost Photovoltaic Modules: Average price of EUR0.060/Wp, a decrease of 7.7% compared to the previous month. These figures underscore the significant pressures in the photovoltaic market, as price reductions strain margins to unprecedented levels.

Are solar module prices at the lowest point in Europe?

Surpassing the EUR0.06/W threshold may indicate that solar module prices in the European market have hit their lowest point. "This is the bottom in the EU," Van Bellen said. "The next step could be shipping back the products to China or selling them in Africa."

How much does a photovoltaic module cost?

Mainstream Modules: Average price of EUR0.11/Wp, stable compared to September but 21.4% lower than January 2024. Low-Cost Modules: Average price of EUR0.065/Wp, a 7.1% decrease from September and 27.8% from January 2024. These trends are exerting mounting pressure on the photovoltaic sector.

After 18 months of continuous decline, PV module prices in Europe are stabilizing. Will there be further increases ahead?

Solar photovoltaic panel prices Average price of solar modules, expressed in US dollars per watt, adjusted for inflation.

Prices for modules continued their climb in May on strong demand and limited supply, while inverter prices edged down. The PV Purchasing Managers' Index held firm as brand ...

Prices for all-black solar panels also rose slightly, rising 3% to EUR0.096/Wp between March and April. Overall, the tight supply of solar modules in Europe is partly due to China's recent shift ...

PRICE INDEX | January 2026 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main ...

Search4Solar, a European platform for buying and selling solar panels, inverters, and batteries, received a record-low PV module price this week at EUR0.055 (\$0.058)/W. Van Bellen said ...

Summary: This analysis explores the current photovoltaic panel price trends in Europe, examining market

Current PV panel prices in Northern Europe

drivers like raw material costs and policy changes. Discover regional price variations, future ...

Updated photovoltaic module prices 2025: in August, high-efficiency solar panels fell to an average of EUR0.12/Wp in Europe.

The average price of several types of solar PV modules remained stable in Europe in November, according to sun.store.

What are the current long-term solar and wind power prices? Our PPA Insights report shows prices for most European countries.
