

Engineered for European three-phase grids, this 10kW/20kWh system combines industrial-grade components in one weatherproof cabinet: A Spanish bakery chain reduced energy ...

Our innovative modular design caters to diverse application needs, offering eco-friendly, high-yield solutions. Our mission: to green every watt of electricity generation and maximize every watt's value, ...

Suitable for both on-grid and off-grid scenarios, our cabinets convert fluctuating energy prices into predictable costs, ensuring uninterrupted power supply for production lines even during grid outages, ...

new 3-phase battery storage system. With this 3-phase line, GivEnergy aims to help customers future-proof their energy independence, while fast-racking domestic energy efficiency. Previously, ...

Mandatory European safety certificates for inverters and batteries: EN 50549-1 for the Maxus inverter applies to electricity generation units connected to low-voltage grids, and EN 50549-2 applies to ...

Various model's mounting plates accommodate a variety of 15/25/35 kV, 200-600A junctions. The cabinets four eye-bolts allow the line-person to simply hook-up the cabinet, position it over the ...

Europe's shift to renewable energy makes outdoor storage cabinets indispensable. With strict standards and diverse needs, the market favors reliable, innovative solutions--an area where ...

OmniCube-L233 series is an all-in-one solution for C& I energy storage systems. High voltage three phase cabinet offers a variety of applications. Basic system consisting of battery storage with ...

The Three Phase All-in-One Cabinet is designed for users looking for a complete, efficient and flexible energy storage and management solution. This system is ideal for both home and business ...

The cabinets can be connected to a three-phase electricity supply system. We can design and equip our cabinets according to your requirements or electrical constraints.
