

After testing the EVE LF280K Certified Automotive Grade cell against three other 280Ah cells, it is clear what is going on here. In my final verdict, I pick up on a few comments which quickly...

Hi there, I'm testing brand new Eve LF280K cells with the EBC-A40L. Starting voltage when cell were received: 3,2810V (tested with YR1035+) Step 1 -...

At the time I bought them, I didn't know about the production issues with the LF280k. Don't know if they sorted them out. I'd probably go for the 304 version. \$4 (4%) more for 9% more ...

Has anyone used these or have any longer term usage stats on them as they seem incredibly cheap. He was very happy with them still and even runs his hot water system off them and ...

View graphs & charts of various tests we have done with the ZKE-A40L here: <https://drive.google.com/drive/folder...> Ranges for 280K are between 896WH - 914WH, but they all seem to eventually...

I'm testing the #Gobelpower EVE LF280K A-Grade LiFePO4 cells. I've got all my ZKE-Tester out on the workbench to take charge and discharge curves, measure capacities and record all data for a...

I got my eve cells from Docan - recommend them. They have a US based warehouse for fast shipping, and get good reviews. They have a variety of cell capacities in CATL and EVE. I can't ...

Comparing the EVE LF304 to the LF280, LF280K, and LF280k v3, MB30, MB31 we can analyze the key differences and similarities among these popular Lifepo4 cells.

EVE is also one of the top 10 lithium-ion battery manufacturers in ...

? Dive into the ultimate comparison of EVE LF280, MB30, and MB31 energy storage cells!

EVE is also one of the top 10 lithium-ion battery manufacturers in China. Their 280ah battery cell is also the main product of the manufacturer and was widely praised by customers once it ...

After consulting with EVE, we got an official reply that the cycle life of LF280K is indeed longer than that of LF280 and LF280N, but not as much as indicated in the data. LF280 and LF280N will also have a ...
