

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust ...

UniMove offers a solar panel lifter for every step of your processing operations. You can easily grip the solar panels with suction cups that have been designed for specifically handling this type of material.

Meta description: Discover how excavator-modified platforms are solving critical challenges in photovoltaic panel installation. Explore cost-saving innovations, safety improvements, ...

Now, we bring another excavator-powered breakthrough--automating the heavy lifting of solar panel modules. What happens when two methods face off side by side?

Picture this: A 45-ton excavator delicately lifting a crate of photovoltaic panels like a ballet dancer handling crystalware. This unexpected marriage of brute force and precision is rewriting the rules of ...

The SPL is designed to alleviate fatigue and strain by mitigating any need for workers to have to carry solar panels for long periods of time or lift them over their heads.

Volvo Construction Equipment (Volvo CE) has completed work to install photovoltaic solar panels at its crawler excavator plant in Shanghai, China - in yet another signal of its commitment to reduce the ...

The Solar Panel Lifter system is a revolutionary tool designed to streamline the installation and adjustment of solar panel modules in the field. By seamlessly connecting to a range of mini ...

We design, manufacture, and sell innovative equipment that enables workers on job sites to lift and maneuver heavy, bulky, or awkward materials, and perform repetitive handling tasks such ...
