

A newly formed joint venture between back-contact (BC) solar module maker Aiko and Skyworth PV is planning to build a 5 GW BC panel factory in Beihai, Guangxi province.

On March 6, 2024, Guangxi Energy held a centralized commencement ceremony for the construction of photovoltaic power generation projects in Hezhou City, Guangxi. This is the first batch of new energy ...

Get advice from Guangxi Solar experts today! Innovating sustainable solar energy solutions for a brighter future, we empower communities with clean, renewable power.

The two photovoltaic projects involved are the Tianba Photovoltaic Power Generation Project in Zhaoyang District and the Banqing Photovoltaic Power Generation Project in Qiaojia County.

Given the complexity of assessing the installable area of photovoltaic (PV) panels on highway slopes across large spatial scales, a regression assessment analysis was conducted using ...

Recently, the first batch of solar panels of the new-type LED photovoltaic-grain integrated project, launched by the Guangxi branch of CHN Energy in Luancheng Town, Hengzhou City, began ...

In response to China's national "Dual Carbon" goals, Liuzhou Hengjia Tower Manufacturing Co., Ltd. has successfully completed a rooftop solar photovoltaic retrofit project at its ...

This page focuses on the 85MW BIPV Photovoltaic Power Generation Project, showcasing Jinyou Group's support for building-integrated photovoltaic projects with professional PV ...

The company specializes in the PV glass production and solar farm development and construction. Major products include ultra-clear patterned solar glass (raw and tempered), anti-reflective coating ...

In a significant move, Aiko and Skyworth PV will establish a 5 GW back-contact solar module factory in Guangxi, China. The strategic partnership underpins China's push towards ...
