

The 20KWh Outdoor Photovoltaic Energy Cabinet is well-suited for coastal regions in Japan due to its strong anti-corrosion performance. The outer layer of the cabinet is made of FRP material, which ...

Perfect for industrial equipment, electrical cabinets, and outdoor installations, our enclosures offer customizable solutions for renewable energy, telecommunications, and more.

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...

Cabinets are available with integrated thermal management using either a fan and filter combination or air conditioner to control internal temperatures for protecting sensitive 19" rack equipment from water ...

Designed with sealed construction and efficient heat exchange technology, these cabinets adapt to demanding climatic conditions including high temperatures, extreme cold, desert environments, and ...

AZE's 18U Wall mount Outdoor Cabinet are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while ...

It consists of several key components, including a 30KW DEYE high-voltage ...

It consists of several key components, including a 30KW DEYE high-voltage energy storage inverter, a SunArk 60KWH high-voltage lithium-ion battery pack, and an IP55 outdoor cabinet.

They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.

Outdoor cabinets are for use whenever maximum protection is a must. The anti-vandalism qualities provides protection against electromagnetic radiation and conditions of high heat.
