

Made of aluminum alloy, hot-dip galvanized steel or stainless steel, wind and snow resistant, it has ground-mounted, rooftop-mounted and floating types, and is key to ensuring system stability.

To enhance their longevity and resistance to corrosion, our brackets undergo advanced surface treatment processes, including hot-dip galvanization and a galvanized aluminum-magnesium ...

The company's main products are photovoltaic brackets, hot-dip galvanized coils, galvanized coils, color-coated coils, corrugated sheets, FRP lighting tiles, high-speed guardrails, etc.

Ground mounting systems which are made of Q235B or Q345B steel will be hot dip galvanized, with an average thickness of 65-80 microns (±). They have the advantages of light weight, high strength, and ...

Our brackets are made of high-quality hot-dip galvanized steel, which has strong corrosion resistance and can maintain long-term stability in harsh weather and environment, especially suitable for humid, ...

Q2: What types of products does your company mainly produce? A2: We specialize in producing various types of power cables, photovoltaic mounting systems, and cable trays.

Attributes Tianjin, China Place of Origin YMHDBrand Name GROUNDModel Number 60m/sWind Load 1.4KN/m2Snow Load Hot-Dip GalvanizedSurface Treatment Product name:Solar PV Ground ...

In order to install bifacial solar modules vertically, thicker metal posts are sunk into the ground, with framing that holds the modules above ground. This racking scheme is meant to be installed in ...

Introducing our Hot Dip Galvanized C-shaped Steel, the ideal choice engineered for contemporary photovoltaic brackets. Tailor the material, color, and size to perfectly complement your flat roof or ...

Hot Dip Galvanizing Steel Pv... 150*65*5.0+U49*50*3.0mm or customized size. Base connector with standard AISI, ASTM, GB,BS,EN,JIS,DIN or customer's drawings. ?Materials?:Carbon steel, ...
