

# Installation of battery cabinet including discharge

How do I install a battery cabinet?

Create an installation plan for the battery cabinet (Chapter 2). Prepare your site for the battery cabinet (Chapter 2). Inspect and unpack the battery cabinet (Chapter 2). Unload and install the battery cabinet, and wire the system (Chapter 3). Complete the Installation Checklist (Chapter 3).

What is an integrated battery cabinet (IBC)?

The Integrated Battery Cabinet (IBC) systems are housed in single free-standing cabinets. Two models are available: Model IBC-S (small cabinet) and Model IBC-L (large cabinet). Each model features three battery voltage ranges to meet application run time needs. Up to four cabinets may be daisy-chained together to further extend battery run times.

How do you secure a battery cabinet?

Secure the battery cabinet position by lowering the leveling feet until cabinet is not resting on the casters. Ensure the cabinet is level and matches the height of the installed UPS cabinet. NOTE Two cabinet joining brackets are provided in the field kit for securing each cabinet at the top and bottom.

What are the battery cabinet external wiring requirements?

The battery cabinet external wiring requirements are shown in Tables D and E. NOTE 1: All specified wire sizes are 90 C rated copper minimum. NOTE 2: Replace with same type and number of original battery. Mixing battery letter designation and or sizes will damage equipment and void warranty.

This manual provides installation and operation instructions for the Galaxy Lithium-ion Battery Cabinet.

The Integrated Battery Cabinet (IBC) systems are housed in single free-standing cabinets. Two models are available: Model IBC-S (small cabinet) and Model IBC-L (large cabinet). ...
