

Aiming at overseas application environments, Kehua Hengsheng independently developed a 1500V centralized "turnkey" system with a single system power of up to 3.6MW.

Currently Kehua has 16 technical service centres, 60 domestic and overseas technical service outlets, with one-stop supply of spare parts to minimize rush repair and maintenance time.

In its exploration of multi-regional grid projects, Kehua Data has continually expanded its application areas, leaving its mark from microgrid practices to strong overload black start applications, and ...

Based on power conversion technology, Xiamen Kehua Digital Energy Tech Co., Ltd ("Kehua Digital Energy") has diversified solutions and rich project experience in the fields of photovoltaic, energy storage, micro-grids, ...

Kehua's grid-forming energy storage technology has demonstrated its practicality and advancement with multiple worldwide projects.

In 2022, Kehua provided a grid-forming micro-grid solution for the power department of a Middle Eastern oil ministry, employing grid-forming energy storage combined with photovoltaic inverters and diesel ...

As the exclusive provider of overall energy storage solutions, Kehua Hengsheng has made in-depth layout of the design and planning of this project.

Kehua Hengsheng Co., Ltd. Add: No. 457, Malong Road, Torch High-Tech Industrial Zone, Xiamen Fujian China Tel: +86-592-5160516 Fax: +86-592-5162166

With installations exceeding 46GW in PV and 15.2GW/8.2GWh in energy storage globally, Kehua is a Tier 1 clean energy provider committed to promoting a zero-carbon future.
