

What are the largest lithium mining companies?

These are the largest lithium mining companies according to their market capitalization. 1) Ganfeng Lithium; 2) Albemarle Corporation...

Which country produces the most lithium in 2024?

In fact, China was the third largest lithium-producing country in 2024 in terms of mine production, behind Australia and Chile. Chinese companies are mining in other countries as well, including top producer Australia, where a few are part of major lithium joint ventures.

Who is the largest miner of lithium?

The world's largest lithium-producing mine is Talison Lithium and Albemarle's Greenbushes hard-rock mine in Australia, which put out 37,000 metric tons of lithium in concentrate in 2022. Coming in second place is SQM's Salar de Atacama operations in Chile, with 2022 production of 29,500 metric tons of lithium.

Who owns Australia's largest lithium mine?

For example, Australia's largest lithium mine, Greenbushes, is owned and operated by Talison Lithium, which is 51 percent controlled by Tianqi Lithium Energy Australia, a joint venture between China's Tianqi Lithium (SZSE:002466, HKEX:9696) and Australia's IGO (ASX:IGO, OTC Pink:IPDGF).

Lithium mining drives the energy transition. Discover extraction methods, innovations like direct lithium extraction, and the seven largest companies shaping 2024.

As nations accelerate their transition to renewable energy systems, lithium has become a strategically vital mineral for battery ...

Explore the largest lithium mining companies, global industry trends, and innovative extraction shaping battery production, energy, and sustainability in 2025.

The following table contains a list of the largest lithium mining companies by market capitalization, primarily traded on NYSE/ASX/TSX (including producers with 10,000+ tonne LCE ...

For a long time, most of the world's lithium was produced by an oligopoly of US-listed producers. However, the sector has transformed significantly in recent years. Interested investors ...

Interested in lithium-mining companies? Take a look at our list of the world's biggest lithium producers by market cap.

Top 10 lithium mining companies globally include Albemarle, SQM, Tianqi Lithium, Ganfeng Lithium, Mineral Resources, Pilbara Minerals, Allkem & Livent The demand for lithium-ion ...

As nations accelerate their transition to renewable energy systems, lithium has become a strategically vital

mineral for battery manufacturers. Here we analyze the Top 10 Companies in the ...

For a long time, most lithium was extracted and processed by only a few large companies. However, this has changed in recent years. Below, we have listed the largest lithium mining ...

In fact, China was the third largest lithium-producing country in 2024 in terms of mine production, behind Australia and Chile. Chinese companies are mining in other countries as well, ...
