

The nRF54L Series provides this outstanding processing performance with Nordic's proprietary technologies, a unique design approach, and pioneering progression to the low-leakage 22nm ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, is bringing AI intelligence and functionality to the smallest battery-powered IoT devices.

The "IDR01" is based on Nordic's nRF54L15, that doubles the processing power and triples the processing efficiency of the previous generation of SoCs, enabling the smart ring to combine a host ...

Nordic delivers world-class hardware, embedded software, development tools, power management, world-class support, and cloud lifecycle services - all simplifying development for developers to build ...

Nordic Semiconductor, a global leader in low power wireless connectivity solutions, today announced the launch of the nRF54LM20A, the latest addition to its next-generation nRF54L Series of ultra-low ...

Cloud Services The cloud services optimized for ultra-low power Nordic Semiconductor wireless devices  
Cloud Services Overview Location Services Security Services Device Management Device ...

Nordic news Nordic shares product and business related news to inform and inspire. Get new perspective, industry news, product updates and more.

It is designed as a complementary component to Nordic's nRF52 Series and nRF53 Series System-on-Chips (SoCs) to ensure reliable power delivery and stable operation, whilst maximizing battery life ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the launch of the nRF9151 SMA Development Kit (DK), a specialized DK for RF engineers ...

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the acquisition of its long-term partner, Memfault Inc., the market-leading cloud platform provider for ...
