

In this article, we explore how solar containers work, their benefits for off-grid agriculture, and how they're helping create a more resilient and productive farming future.

Discover Solar GEM™, a prefabricated, mobile solar solution designed for off-grid energy needs. Scalable, robust, and ready-to-deploy worldwide.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

It also incorporates solar power to solve off-grid locations. Our indoor farming system enables farmers and growers to produce crops year-round, regardless of the weather, and harvest continuously ...

Our Solarfold(TM) containers can be fully deployed and operational in under 6 hours. The automated unfolding system allows for quick setup without needing extensive technical expertise or heavy ...

Ensure constant, fresh water for your farm dogs with these top 6 solar dispensers. A guide to off-grid reliability and automated hydration.

It is a revolutionary, vertical aquaponic food production system that is both off grid and automated. Powered by solar energy and rainwater, our basic unit can produce a commercial quantity of produce ...

Cool-Watt™ is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists.

The Aldelano Solar Container Farm(TM) is a new, innovative vertical farming solution that thrives within an insulated, custom-built, climate controlled shipping container.
