

Private network base station intelligent power box

More than an edge box, each NDC functions as a flexible telecom node purpose-built for modern, distributed networks. It can connect through multiple radios, host local AI/ML workloads, and adapt to ...

Modular design with enhanced compute and connectivity for defense, government, industrial, and commercial use cases. Rugged and compact solution equipped with the latest processing, AI/ML/DL, ...

Powered by Signalchip's highly integrated and power-efficient 4G System on a Chip (SoC), the Base Station offers higher performance at a significantly lower power. Typical usage: linear corridors, ...

The compact, portable box integrates a 5G core and radio access network (RAN), which can provide instant 5G connectivity by using the base stations. It can support 5G usage in various ...

CableFree offers Band 46 5GHz LTE Base Station and Outdoor CPE devices for operation in Unlicensed 5GHz spectrum, enabling smaller operators and private customers to build LTE without ...

The ONV-IoT9000-CK-SI intelligent power box is an intelligent power control system with high integration, strong functionality, and simple installation. It adopts a modular structure, 1 main control ...

The MultiTech Conduit® IP67 Base Station is a highly scalable, ruggedized IoT certified gateway solution, specifically designed for outdoor LoRa®; public or private network deployments.

Chunghwa Telecom has chosen Askey as its preferred partner for the "5G Private Network Backpack 3.0" solution, a highly mobile and ready-to-deploy solution for 5G private network. This ...

We believe in providing the building blocks and the best possible combination of the elements that can be used to construct a standalone private network for hosting wireless network infrastructure, smart ...

Genew Technologies Co. Ltd. is a global system provider for end-to-end communication solutions and telecom infrastructures, our main products contain Mobile Core Network, Private Networks, etc.
