

Mass Global Energy Rom has announced a new strategic investment of approximately EUR1 billion in Battery Energy Storage System (BESS) capacities, bringing its total commitment to the ...

MASS Group's EUR1+ billion investment aims to deploy large-scale battery storage in Romania, addressing grid volatility from renewable expansion and providing fast-response balancing ...

The project involved the installation of a 36MW lithium-ion BESS with a nominal energy storage capacity of 72MWh, which is designed to balance the energy output of a hydropower plant ...

Romania is quietly becoming one of Europe's most exciting energy storage markets. By the end of 2025, the country aims to reach 2.5 GW of battery energy storage systems (BESS) -- with ...

Complete guide to battery energy storage systems (BESS) in Romania. Learn how storage batteries work, their role in balancing the Transelectrica grid, and how they generate revenue from AFRR ...

Private energy developer Mass Group Holding plans to invest 1 billion euros (\$1.18 billion) in battery storage capacity across central Romania, the government said in a statement on Thursday ...

Prime Batteries Technology, a portfolio company of InnoEnergy, has been selected to supply a 72 MWh lithium-ion battery energy storage system (BESS) for Hidroelectrica, Romania's ...

Hidroelectrica's battery energy storage system (BESS) of 36 MW and 72 MWh, co-located with its Crucea Nord wind park in Romania's southeast, is on track to come online more than ...

Privately held MASS Group Holding plans to invest more than EUR1 billion (~\$1.18 billion) in large-scale battery energy storage projects in Romania after reaching an agreement with the Romanian ...

Hidroelectrica signed the contract for the battery with a consortium of two Romanian companies, Prime Batteries Technology and Enevo Group. The implementation deadline is 12 ...
