

In February 2016, St. Lucia Electricity Services (LUCELEC) released a request for proposal to companies to submit bids to construct the power station. The tender was won by GRUPOTEC. On 20 June 2017, LUCELEC and GRUPOTEC signed the contract to begin the engineering, procurement and construction of the power station. The groundbreaking ceremony for the construction of the power station happened on 29 September 20...

Once completed and operational, the 10 MW solar farm will provide clean, reliable, and sustainable energy to power homes and businesses across Saint Lucia, marking a new chapter in ...

The Vieux Fort Solar Farm is a photovoltaic power station in La Tourney, Vieux Fort District, Saint Lucia.

We design, install, and maintain solar power systems that thrive in the Caribbean climate, built for performance, durability, and long-term savings. Every project reflects one simple belief: clean energy ...

Additionally, and conditional upon the successful exploration of the resource, Saint Lucia intends to add geothermal energy generation to its renewable energy mix, which would bring overall ...

St Lucia Electricity Services (LUCELEC) is planning to tender a 10 MW solar project in Saint Lucia. According to a notice posted by the utility, the facility will be the island's second...

The future of solar power in St. Lucia is bright, and companies like EcoCarib are leading the charge. With the continued expansion of solar installations, St. Lucia is on its way to becoming a ...

Discover how solar power generation with battery storage transforms energy reliability in Saint Lucia. This guide explores system benefits, cost-saving case studies, and actionable insights for ...

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project--a 10 MW photovoltaic installation paired ...

Electricity can be produced directly from solar energy using photovoltaic devices or indirectly from steam generators using solar thermal collectors to heat a working fluid.
