

From outdoor energy storage system cabinets to integrated cloud-based controls, EPC Energy has you covered. We want to help you create a sustainable future.

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

Pytes HV48100 SE is a high-voltage outdoor LFP energy storage system. IP55 rated, wide temperature range, supports parallel expansion up to 76.8kWh, built-in fire protection, and remote monitoring. ...

All-in-One Design: Compact, pre-assembled solution for easy deployment and reduced installation time. High Scalability: Modular architecture allows for flexible capacity expansion. Robust Protection: IP54 ...

The QC-215K-O outdoor cabinet energy storage system is well-suited for a variety of industrial and commercial settings, including supermarkets, restaurants, hospitals, and industrial parks.

The NEMA type outdoor lithium battery enclosure can effectively control the inner ideal temperature of the cabinet and make the battery run in an ideal temperature condition.

The Lithium ion battery system provide a high value/efficiency, innovative, long life and reliable solution to be used for energy storage in commercial and industrial applications.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

As a leading energy storage system supplier, Megarevo offers compact, integrated cabinet BESS designed for small C& I, hospitals, conferences, and weak power grid areas.

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.
