

Window solar power generation scheme atlas

The World Bank's Energy Sector Management Assistance Program (ESMAP), released its Global Solar Atlas 2.0 and Global Wind Atlas 3.0 in October 2019 in collaboration with the Danish Technical University (DTU)

...

The World Bank and the International Finance Corporation, collectively The World Bank Group, have provided this Global Solar Atlas in addition to a series of global, regional and country GIS data layers and poster ...

The primary aim of this Global Solar Atlas is to provide quick and easy access to solar resource and photovoltaic power potential data globally, at a click of a mouse.

Solar resource and PV power potential maps and GIS data can be downloaded from this website. Maps and data are available for 145 non-OECD countries and selected regions .

It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location ...

Solar Resource Maps and Data Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. Solar Supply Curves View an ...

Enter a state, county, city, or zip code to see a solar estimate for the area, based on the amount of usable sunlight and roof space.
